We are working hard to improve our environmental policies.

## Reduce, Reuse, Recycle

We supply the best quality rubber, self-inking and pre-inked stamps fast. Most of our products are now eco friendly. Many are produced with reprocessed ABS. In addition our environmental policy includes recycling much of our waste material.

We are actively working towards reducing our carbon footprint.

**Page 1** - The base of our traditional stamps are produced with 100% reprocessed ABS.

**Page 2 & 3** - Our very popular MaxStamp custom made self inkers are now being manufactured with recycled material.

**Page 7** - We now stock a self-inking range produced from reconstituted plastic material.

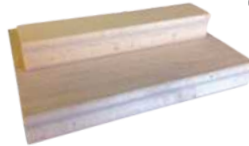

**Page 20** - Our stamp pads are produced from recycled material.

This range is produced from recycled material. The base of the mount is made from 100% reprocessed ABS. The handles are reproduced from prime material for impact strength but can be returned to recycle in base production.

← This traditional stamp is bright and modern in appearance and of a robust construction. The stamp is indexed; you can see the impression you will make through the clear plastic cover on the upper surface of the mount.

Larger stamps are usually supplied on wood moulding **(A)**. To enable easier use where suitable, these include a holding handle for a comfortable grip. They are still available on our lightning service at no extra cost.

**(A)**

**(B)**

Rocker stamps **(B)** can be made, but these take a little longer to make, Please ask for a quote.

Reducing consumption is the number one way to be more sustainable. These fully recycled stamps will last. After thousands of impressions the ink pad can be replaced and so can the rubber die, should you choose to change your design.

The entire casing is made up from reconstituted material, which can be recycled again and again.

Perma Stamp - the original pre-inked stamp. The microporous material contains sufficient ink to give 1000's of impressions. Simply remove the protective cover and the stamp is ready to print. When the impression eventually fades, it can be refreshed with re-inking fluid. We recommend that all perma stamps are refreshed regularly. This will prevent drying out causing contraction and potential damage.

Available in Black, Blue, Red, Green and Violet.

The price is based purely on size - decide the overall dimensions of the stamp (width x depth) and refer to the pricing chart to obtain an instant price. No additional charges are made for borders.
