

Perma Stamps

Perma Stamp - the original pre-inked stamp. The micro porous material contains sufficient ink to give 1000's of impressions. Simply remove the protective cover and the stamp is ready to print. When the impression eventually fades, it can be refreshed with re-inking fluid. We recommend that all perma stamps are refreshed regularly. This will prevent drying out causing contraction and potential damage.

Available in black, blue, red, green and violet.
